

Squibb Creek Falls

A 3.5 Mile One Way, 7 Mile Roundtrip, Moderate Hike - Elevation Gain 612 Feet
A Hiking Trail in the Sampson Mountain Wilderness.

Hiked May 27, 2010

Copyright 2009 Ned Sanders. Information may be used by permission only.

Directions to Trailhead: Leave Greeneville on 11-E Bypass North. Drive past the Wal-Mart Supercenter and turn right at the first traffic light on Highway 107 toward Erwin. Continue for 5.1 miles, turn right and follow the signs to Horse Creek Recreation Area. Upon entering Horse Creek continue straight ahead to the end of the paved road and small parking area.

Park and begin your hike up the old forest service road. After only .1 mile you will leave the road and cross the creek on a bridge to your left. After two more bridged crossings, you will pass an A-Frame house on private property. Here you will cross the creek by rockhopping, then cross two more times to reach the bottom of the loop at .75 of a mile. The Turkeypen Cove Trail (which is a little difficult to spot at this point) begins to your left. Take the right fork straight ahead for just a few hundred feet to reach the junction of the Middle Springs Ridge Trail and the trail to Squibb Creek Falls. For this hike, you will continue straight (right).

Hike moderately uphill with a few minor creek crossings. At the time of this hike the trail was in good condition with only a few minor blowdowns. You will reach Squibb Creek Falls, a beautiful cascade, after 3.5 miles. Return to the trailhead by the same route.

SYNOPSIS OF HIKE

Mile	Elevation	Description
0	1984	Trailhead at Horse Creek.
.14	1992	Bridge over creek to left. Two more bridged crossings.
